Introduction

I am a dedicated computer science student who has both technical and interpersonal skills. My ability to breakdown complex problems and notice patterns is an aid to any project I engage in and my soft skills enable me to be productive in team settings, driving innovation, and fostering a positive work environment.

Skills

Languages: C++, SQL, HTML, CSS, JavaScript, Python

Technologies: MongoDB, ExpressJS, Reactjs, NodeJS, Bootstrap

Soft Skills: Problem-Solving, Team Collaboration, Agile Development

Projects

Medical Chatbot   View Site »
- Designed a medical assistant to streamline healthcare provider-patient interaction
- Tools Used: Bootstrap, Google Gemma API

Celestial Object Generator   View Repository »
- application that generates realistic-looking celestial objects using procedural generation techniques. This interactive tool allows users to create various astronomical objects with customizable properties and effects.
- Tools used: Python: Tkinter, torch

Text Utilities   View Repository »
- Built a webpage to allow for processing of strings based on user input.
- Tools used: Reactjs
